Plans for Lions Carnival Aug. 31- Sept. 3, Complete

High School Athletic Field Lighting To Benefit

Plans for the Lions Club carnival which is scheduled to open Friday evening, August 31, and to continue for four days through September 3, are now complete, according to Roman B. Vos, chairman of the carnival committee.

Among the attractions to be offered during the four-day carnival will be rides for young and old, as well as dancing every evening and games.

President Harry J. Krueger of the club states that all revenue derived from the carnival will be placed in the fund which is currently being raised by the club for the installation of floodlights at the Antioch Township high school athletic field. The floodlight system, which will be installed at an approximate cost of \$7000, is expected to be in readiness for the first football game of the 1945 season.

The grounds south of the village park have been secured for the site of the carnival.

Rescue Squad's Benefit Dance Is Highly Successful

Rejoicing over victory and peace helped to heighten the gala spirit of the huge crowd filling the Channel Lake pavilion to capacity at the Antioch Rescue squad's annual benefit dance this (Thursday) evening.

Ed Klemme and his popular orchestra made a hit with the dancers. Refreshments, including sandwiches, were not lacking, and there were diverse amusements for those who did not care to dance.

The entire membership of the squad acted as a committee for the evening.

All proceeds from the affair will be used for maintenance and purchase of equipment during the coming year.

Would-Be Extortionists Not Involved in Ventura Case, Authorities Say

Rumors that the mystery in the slaying of Floyd Ventura, Kenosha tavern operator, near here Jan. 24 was about to be dispelled were denied when Lake county and federal officers stated that, to their knowledge, three Wisconsin men arrested last Saturday in connection with an attempted extortion case had nothing to do with the Ventura affair.

The men who were involved in the attempted extortion of \$40,000 from William C. Hubbell, 54, vice-president of the Harvard, Ill., State bank, were Burdell M. Boardman, 20, of Delavan, a war worker; Carl S. Garman, 32, a discharged serviceman, now of Delavan but formerly of Harvard, and William M. Huber, 40, Elkhorn, Wis., who served five years at Leavenworth for forgery of a government check.

Rumors which spread after their arrest were to the effect that they had threatened to kill Hubbell, as they had Ventura, if he refused to pay them the amount they demanded. Investigations by FBI agents led them to discount the possibility that the three were involved in the Ventura murder.

St. Peter's Annual August Party Draws Record Attendance

All records for attendance at any annual August party at St. Peter's church were broken Wednesday afternoon when more than 80 tables of cards were in play. This is by far a larger attendance than any previous party and it is believed that the fact that the party date fell on V-J Day was a large factor in making it possible.

Mrs. Thomas Killoran, president of the Ladies' sodality, was chairman of the committee for the party and Mrs. Thomas F. Hunt was in charge of advertising.

Many unusual prizes for high scores in cards were awarded.

Virginia Carney of Antioch made a blood donation at the Red Cross center, 5 North Wabash avenue, Chicago.

Bristol Band to be Heard Here Aug. 20

The Bristol Community band will be presented in a concert Monday evening, Aug. 20, under the auspices of a number of local merchants and business men.

The concert will be given in the village park, commencing at 8 o'clock.

Dave McElroy, director of the Bristol band, is also director of the Zion Concert band, Zion Youth band, Zion Grade School band, the Waterford, Wis., High School band and the Union Grove, Wis., High School band.

Sgt. Robert Hurtgen has been transferred to Europe, according to word received by Mrs. Maud Brogan Hurtgen. He made the trip by plane, in 18 hours. At present, he is at the University of Paris, in the heart of the city. He expects to be assigned to setting up a school in either France or Germany, to help in the counseling program planned in connection with reconstruction work.

Something of the scope of the work of the 451st Bombardment group, in which their son, T/Sgt. Harry Nelson, served on his second tour of duty in the European Theater of Operations, was revealed for Mr. and Mrs. S. Boyer Nelson in pictures and articles published in the Bangor, Me., Daily News issues of Aug. 1 and Aug. 2.

One of the pictures was that of the B-24 bomber, "Fertile Myrtle," on which Sgt. Nelson served for some time. He was later grounded while the 451st was based in Italy.

On its return from two years of aerial combat in the Mediterranean Theater of Operations, the 451st, "pride of the 15th Air Force," was stationed at Dow field, Bangor, where its members are being screened, classified and processed, prior to assignment at the five major continental bases of the North Atlantic division, Air Transport command—Presque Isle, Dow, Grenier field, LaGuardia field and Washington National airport.

The 451st is reputed to be the most heavily decorated bomb group in the 15th Air force—top outfit out of 21. It has won three Presidential citations—more than any other bomb group in Europe. Its personnel have won one Distinguished Service cross, nine Legion of Merit badges, 25 Silver Stars, 50 Soldier's medals, one British Distinguished Flying cross, hundreds of Distinguished Flying crosses, thousands of Air medals, several hundreds of Bronze stars, and many other decorations.

"The members of the outfit proudly wear 12 battle stars—representing twelve major campaigns in which they participated," the Bangor paper comments. "Altogether, the 451st flew 245 combat missions, and dropped over 13,000 tons of bombs on the enemy. Over 8,000 men were at one time or another members of the outfit."

Sgt. Nelson flew overseas with the group, which went over to Africa.

Lake Villa Club Set for Festival Dance Aug. 22

Dancing, Games and Auction To Be Attraction at Sherwood's

Ambitious plans have been made by the Lake Villa Community Men's club for its "Summertime Dance and Festival" to be held Wednesday, August 22, in Sherwood Park, Grand avenue at the south shore of Cedar lake.

Heading the many attractions to be presented at the fun-fest will be the auction of several hundred items which have been donated by businessmen and individuals of the community. Among the items to be put on the block will be prize livestock; poultry; cigarettes; 20 squares of roofing; whiskey and liquors; automatic hot water heater; and many other items and services. The ladies are expected to do some lively bidding when pairs of Nylon hose are disposed of. Wm. A. Chandler, well known auctioneer, has volunteered his services, as has Ambrose Griffith, of Public Auction Service company, who will act as clerk.

Dancing will be continuous until the small hours of the morning, with Bob Langdon's orchestra providing the "jive."

Games of all sorts, refreshments and other attractions have been arranged for by the club and members of the committees state that advance interest in the affair indicates a large attendance.

Problems of Employees In Armed Forces Get Public Serv. Co. Aid

Britton I. Budd, chairman of the Soldiers and Sailors Service Council reported at the organization's fourth annual meeting held today that more than 30,000 Illinois fighting men or their families were relieved of their personal problems without cost during the past year due to the council's efforts.

"These, added to the 80,000 who were helped previously," Budd said, "make a total of more than 110,000 Illinois servicemen who have been given free help by the council since it was organized ten months before Pearl Harbor."

"During our first three years of operations, we thought we had handled every type of personal problem imaginable. Last year we handled all the previous ones and some new ones too."

While problems with respect to allotments, personal debts, insurance, and mortgages continued to comprise the bulk of the cases last year, two new types loomed up to plague many servicemen or their families, Budd reported.

One—the problem of gaining admittance into the United States for foreign-born wives—arose from the increasing number of overseas marriages of soldiers and sailors. It has been solved by the council through cooperation of the Bureau of Naturalization and volunteer attorneys.

The other—the administration of estates of servicemen killed in the war—has been solved by a speed-up plan adopted by Probate Judge John F. O'Connell and State's Attorney William J. Tuohy in cooperation with the council. Under the cost-free plan, many servicemen's beneficiaries who were urgently in need have obtained promptly all government payments due them as well as other estate assets. Bonding companies also cooperated in the plan by reducing their bond charges by 75 per cent on servicemen estate cases.

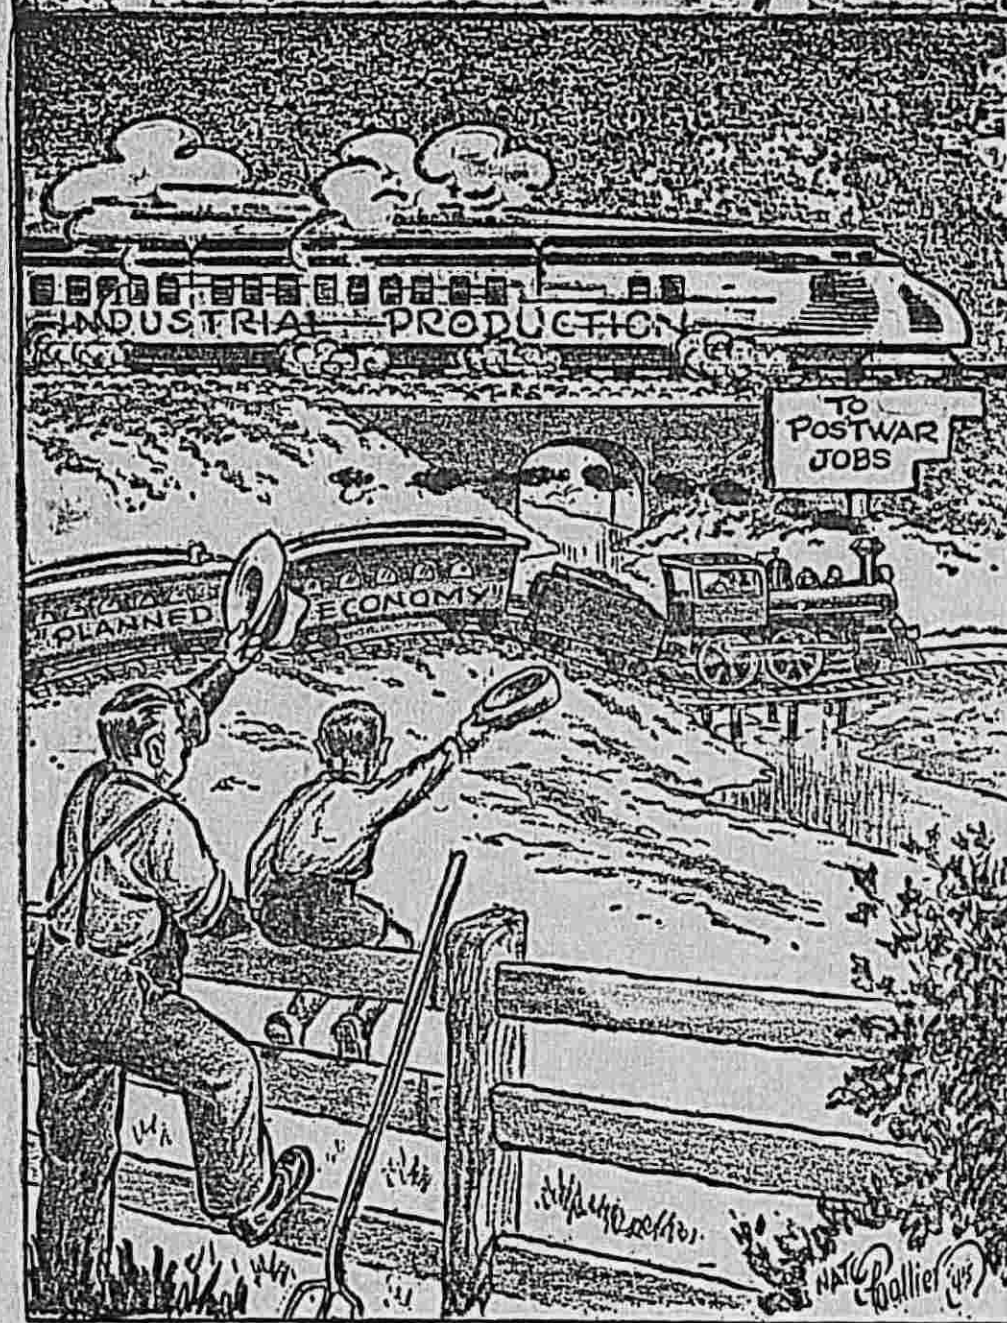

Other servicemen problems solved by the council last year, included enlistments, discharges, real estate and income taxes, evictions, legal aid, medical aid, maternity care, employment, mustering out pay, pensions, immigration and naturalization, and transportation.

At present, Budd said, the council is handling about 100 cases a day compared with about 60 a day during the last few months of 1944 and about 125 daily a year ago.

At the meeting tribute was paid by council members to the Servicemen's Centers, the Red Cross, American Legion, Veterans of Foreign Wars, the American, State and Chicago bar Associations, and state, county and city social agencies for their "wholehearted assistance and cooperation" during the year.

Officers named for the ensuing year include Governor Dwight Green, honorary chairman; Brig. Gen. Leo M. Boyle, honorary vice-chairman; and Mayor Edward J. Kelly, chairman of the executive committee.

Many Entries in Novice Boat Race

More than 10 motors will roar when the starting flag is lowered on the novice driver event Sunday, August 19, at the Mineola Hotel where boat races will be conducted by the Chain O'Lakes Boat club.

The beginners' race, which was scheduled in an effort to get more drivers into the summer racing program, will include stock boats with power up to 103 horsepower. All entries must be piloted by the registered owner of the boat, and any boat owner who has not raced during the past three years in the Chain O'Lakes will be eligible. A number of boat owners who have been reluctant to compete with the more experienced drivers have indicated that they will enter the event.

In addition to the novice event, the regular schedule of races will be run, including the regular 103 h. p. and under class; the 125 and under and the Class "E" racing runabouts with motors of 190 h. p. and under.

Harry Braisel, chairman of the racing committee of the club, has also contacted racing clubs in Chicago and Milwaukee and entries in the Class A, B, and C, outboard hydroplanes are expected. Events will also include outboard runabout classes.

Sub-Unit of "Bundles for America" Hostess to Two Noted Leaders

Dr. Kathryn Swartz, 84, for whom a Chicago unit of Bundles for America was named, was a guest of honor at a meeting held by the Antioch sub-unit last Wednesday in the home of Mrs. Heinrich Heine at Grass lake.

Mrs. Gladys Young, from national headquarters of the organization at 14 North Michigan avenue, Chicago, was another honored guest at the meeting, which was attended by 42 women.

Mrs. Harry Scott is chairman of the Antioch group, which is specializing in the making of layettes for wives of service men and afghans to be used in veterans' hospitals.

Next month the unit plans to start work on Christmas remembrances for men in the service.

Although "Bundles for America" is a separate organization, it has on many occasions cooperated with the Red Cross in supplying clothing required by persons in need or victims of accidents or disasters.

It has especially concerned itself of late with the families of service men and with service men and veterans.

At present, it is conducting a clothing drive, as members of the units devote considerable time to remodeling adults' clothing for the use of children.

Among the unique assignments handled by "Bundles for America" was the furnishing of orchestra instruments in answer to an appeal from the captain of an LST.

The theft of a spare tire (a re-cap) from the truck of his 1939 Chrysler sometime Monday night or early Tuesday was reported to village and Lake county authorities by Earl Gibbs. Gibbs stated that he believed the theft had been made while the car was in the garage at his residence, 444 Lake street.

Noise Greeted War's End in Lake Region

Throngs Crowd Streets and Highways Tues.

A dozen or more New Year's Eves rolled into one with a few Armistice days thrown in for good measure piled into insignificance Tuesday night when residents of Antioch and the Lakes Region celebrated the ending of the war with Japan.

The announcement of the signing by the Nipponese of the unconditional surrender terms touched off a display here which was beyond anything seen in the community, with fire sirens blowing, bells ringing, automobile horns screaming and the streets full of happy people shouting and laughing.

Within an hour or so after the official announcement, carloads of Chicagoans were in Antioch and the region to celebrate the two-day holiday here.

Many Attend Church. Special services, giving thanks for the end of the war, were held at all local churches and many persons availed themselves of this opportunity to observe the end of history's most destructive war.

The bedlam which followed the official announcement of the war's end was tapering off at 11 p. m. and at midnight Antioch was more quiet than usual, due to all business places being closed.

Although Antioch's streets were cluttered with paper and other debris, no damage of any kind has been reported, and Antioch residents are inclined to be proud of the manner in which the community greeted the ending of the war—with noise, with great happiness—but without any trace of the destruction and vandalism which has been reported in other cities.

Water Fights to Feature Annual Lake Villa Days

Water fights will furnish fun and entertainment for the crowds expected to flock to the Annual Lake Villa Days to be held in the Lake Villa Park, August 31 to September 3.

The Lake Villa Volunteer Fire department, sponsors of the affair, have also arranged to have thrilling rides, dancing and other entertainment.

The department, which is entirely self-supporting, has over the years made the Annual Lake Villa days celebration one which has proved very popular with residents of the Lake region.

Employers Urged to Study Social Security

Now that men are being discharged from the armed forces in increasing numbers and controls on civilian production are being lifted, many veterans and other civilians are going into business for themselves for the first time. These new employers should not fail to learn about their duties under the Social Security Act, Bernard Barnett, manager of the Social Security Board's office in Waukegan, said today.

"Every employer must get an employer's identification number," he said, "regardless of whether he has only one person working for him, or many, or only part-time employees. The employer must use this identification number when making out social security tax returns. Each employer also is required to keep a record of each employee's name, his social security account number, and the amount of his wages."

Employers in this area, Barnett said, can apply for their identification numbers by writing or calling at the Post Office Bldg. "Our office," he added, "will be glad to give them full information about their responsibilities under the Social Security Act."

Hunting Licenses are Available Here Now

With the receipt of hunting licenses for the fall season here, R. L. Murrie, village clerk, announces that the season on squirrels will be from Sept. 1 to Nov. 15, with the possession limit 5 a day; that on cock pheasants will open Nov. 11 and last through Nov. 25, with the limit set at 2 a day; the rabbit season will be from Nov. 15 through Jan. 31, with the limit 15 per day.

Chicago Exhibit to be Open to 4-H Members

A hog show will be held at the Chicago Stock Yards on Wednesday, Sept. 26, featuring market swine raised by farm boys and girls.

It will be the sixth annual renewal of this event, known as the Chicago Junior Market Hog Show and Sale.

Any boy or girl who is a 4-H Club member or in vocational agricultural work will be eligible to exhibit.

Cash prizes will be offered in the nine classes of the show by the Union Stock Yard and Transit Company, operators of the Chicago market, and sponsors of the contest. Additional special prizes are offered by the Poland China, Duroc Jersey, Hampshire, Berkshire, and Chester White breed associations.

Premium lists giving details of the show and entry cards are available at the show's headquarters, Room 117, Exchange Building, Union Stock Yards, Chicago.

The Pillsbury Committee on Agricultural Achievement will present a trophy to the exhibitor of the champion individual hog of the show and a cash award to the owner of the best pen of three hogs.

The hogs will be shown in three divisions, single hogs, pens of three, and pens of five, with three weight classes in each division: a light weight class for hogs weighing from 200 to 220 pounds, a middle weight class for entries from 220 to 240 pounds, and a heavy weight class for those weighing 240 to 260 pounds.

Officials of the show announce there will be no entry fee.

All of the entries will be sold following the judging, the first three prize winning lots in each of the nine classes at auction. Ceiling prices will not apply to the sale of these club animals, the management states.

Antioch High School Still Seeking Coach

New teachers who have been added to the Antioch Township High school staff for the coming year include Miss Jean E. Krueger, Genoa City, Wis.; Mrs. Fay Lavold, Jefferson, Wis.; and Samuel Wenet, Chicago.

The position of coach and physical education instructor is still open.

Miss Krueger, a graduate of the University of Wisconsin, will teach English III and chemistry; Mrs. Lavold, a graduate of Whitewater Teachers' college who taught previously in Hartland and Marion, Wis., will teach commercial subjects. Wenet is a graduate of Northwestern university, Evanston. He will teach social science.

Vote Called for Wed. on Addition to H. S. District

The addition of six and one-half square miles of non-high school district territory to the Antioch Township High school district will be voted upon at a special election called for Wednesday, Aug. 22, by Lake County Superintendent W. C. Petty.

Voting will be from 12 noon to 7 p. m., with Antioch Township High school as the polling place for residents of the present district, and the Edward Stenersen residence for voters living in the area which it is proposed to annex.

Confidence—Now!

It is a sad commentary on our times that so many people have been looking forward with acute anxiety to the defeat of the Japs and the return home of our troops.

A great deal of this uneasiness as to the future can be traced directly to the mouthings of professional and amateur trouble-makers, who wish to make our people fearful—to serve their own devious ends.

What we need is confidence.

Confidence in ourselves, in our democracy.

Our way of doing things made us the most powerful nation in the world in war; it can make us pre-eminent, also, in peace.

We must carry that truth in our hearts and in our heads—we must act upon it, as individuals, and express it.

One group that is doing so now consists of our manufacturers. They have confidence in America and its future—and they are backing it with their cold cash.

They have their plans laid right now, according to a Department of Commerce survey, for a nine-billion-dollar expansion program in the next 12 months.

They are confident that, with government making available the materials and manpower necessary (without hindering continued war production), they can solve their reconversion problems and prepare for maximum production and employment.

Their faith in their ability rests on the record of their proved performance in supplying our troops and our Allies with the material for victory in war. They can supply the material for victory in peace.

Let us all share their confidence!

How About It, Master Minds?

One of the hardships of rationing these days seems to be the difficulty mothers of small children ex-

perience in shopping—particularly with regard to standing in line in meat markets and other stores.

In the event there is no one at home to care for the youngsters while "mother" shops, the little tots must also either wait in line or in automobiles—sometimes for a matter of hours, rather than minutes.

We aren't economics experts, but we've been wondering if something couldn't be done to make those long waits unnecessary for the elderly or ill, or for the mothers of very young children.

Quotes of the Week

"The workman is not satisfied with a lettuce-and-tomato sandwich."—Discovery reported to Congress by OPA investigator.

"There's plenty of meat—it's hard to explain why the people can't get it."—Sen. Kenneth Wherry, Neb.

"All they want is a square break, and they're going to get it."—Pres. Truman, after talking to GI's in Europe.

"Unless the manufacturers take the bull by the horns, or Congress revolts and slaps down the OPA, we are going to have a serious deflation and unnecessary unemployment."—Oregon City (Ore.) Banner-Courier.

"Why not a ten-year postwar plan for America, planned by business leaders, to reach a new high in earned prosperity?"—Pres. Ira Mosher, Natl. Assn. of Manufacturers.

"I hope I don't shrink!"—Donald Dunn, Spokane, Wash., 5 ft. 5, who stretched self for a month to make the Marine Corps.

"Golly, what a man!"—Seaman R. L. Springer, Winona, Minn., father of 14 kids, relinquishing Navy record to Chief Steward Zagala, Lomita, Calif., father of 15.

"No beer, no cigarets, no cigars, no money, no friends. OPA please note."—Sign on Popular Bluff, Mo., tavern.

"I've been drinking buttermilk."—Hollywood dancer pinched for erratic driving.

"The war would have been lost had American industry failed in the tremendous demands put upon it."—Hanson W. Baldwin, military expert.

"Ten million salesmen will be needed for postwar business."—Economics, Calif. Institute of Technology.

"Which will come back first—the chicken or the egg?"—Sen. Soaper.

The award was made upon completion of 250 hours of operational flight in transport aircraft over the dangerous and difficult India-China air routes, where enemy interception and attack were probable and expected.

The air trail over the Hump, famed route through the towering peaks of the Himalaya mountains, blazed by the Air Transport command, is recognized by airmen as the world's toughest. Today the Hump route is the main lifeline of vital military supplies for the Allied forces fighting the Japanese in China.

The citation accompanying the award adds:

"Flying by night as well as by day, at high altitudes over impassable, mountainous terrain through areas characterized by extremely treacherous weather conditions necessitating long periods of operation on instruments . . . requiring courageous and superior performance of his duties to overcome, he accomplished his mission with distinction. . . ."

The award was made for the period of service from Feb. 17, 1945, to May 17, 1945.

News of the Boys

"Tonight at mail call I received a copy of 'The Antioch News,'" announces Cpl. Ed Branding, from Czechoslovakia. "It was the first copy I have received in almost a year overseas now, and I was really glad to get in touch with 'the world' again."

"I haven't much to say about this country, as one can never tell what's going to happen next, especially with the weather. It will be warm one day and almost freezing the next. I guess that is about the worst thing here."

"Our outfit is in the heart of the mountains, in what they call the Sudetenland. They can give it all back to the Czechs. I won't say anything."

"This outfit is due for redeployment to the States some time in October. The way it looks now, I will be home for the pheasant season. Watch out, pheasants!"

"I think I had better close now, as I received quite a bit of mail today and have a lot of writing to do."

Mrs. Ora Luhnig of O'Fallon, Ill., spent a few days recently visiting her sister, Miss Minnie Solis, at the Walter Dibble home.

She is the mother of Frank Philip Luhnig of the 10th division of the famous "Timberwolves," who was reported dead but had an amazing escape from death. Luhnig was wounded during the Battle of Antwerp and lay frozen to the ground for four days and three nights. Just as a detail of men began burying the dead, he moved and drew their attention to the fact that he was still alive.

He was transferred to a hospital in England by airplane, and it was learned that a shell fragment had cut a piece from each of two vertebrae of the spine.

He does not know how long he lay unconscious, but when he recovered he was unable to speak and is still unable to do so, although he is able to write.

At one time prior to being wounded, he was in a location where the men were unable to receive supplies of food for 14 days.

After he was wounded and while he was lying helpless, he relates, the Germans came along scavenging from the dead. One, who had a pair of pliers, was delighted when he saw that Luhnig had some gold teeth, but Luhnig states he will never forget the expression on the German's face when he pulled on the teeth with the pliers, and a partial plate came out.

Luhnig is in a rest camp in the Alps now, and states that the Swiss yodelers sound wonderful there. He also says that he is expecting to be back in the "good old U. S. A." for Christmas.

Another of Miss Solis' nephews, Vernell Solis, seaman second class, was lost at sea when the Peary was sunk.

LT. Cmdr. J. W. McMillen is one to look on the brighter side of things, his letter reveals—

"Thought it about time to drop you a line telling you how much I have enjoyed getting the Antioch News for the past 17 months. The service has been good and I haven't missed an issue. By the time you get this, I expect to be on my way home, so tell the circulation department to take my name off the list until further notice."

"Have spent all my time on the island of New Caledonia, nine months as senior shore patrol officer, and for the past eight months as officer-in-charge of the naval receiving station here. The climate is ideal, with fishing and hunting excellent, so you can get a rough idea of how I spend my spare time."

"My first trip up island, we got seven deer. Last weekend we took a duck hunting trip, getting 27 ducks and two deer."

"The ducks here are blue-wing teal and black mallard. They like a duck call, too, even though the 'Sea Bees' made me one without the French accent."

"Thanks again for the paper, and tell all the boys on the fire department that I'm looking forward to a Tuesday night feed with them soon."

MORE TELEPHONES IN RURAL HOMES

Plans of the Illinois Bell Telephone Company to extend and improve farm telephone service will provide a great many more families in rural areas with telephones within three years after men and materials are again available. This wide-range program will cost over \$3,000,000.

It continues and expands a rural program which the company had carried on for a number of years, until the war cut down its pace. Records show that in the territory served by Illinois Bell, rural telephones have increased 115% during the past ten years—a growth more than double that in cities.

When some 2,900 Illinois Bell telephone men and women now on leave with the armed forces come back from the war, one of their big jobs will be to help provide more and better telephone service for farm families.

Hay-rack rides are a fad all over the country at this time of year. What there is so fascinating about it we do not know (the writer is married) but we do know that strong young men who have gone out on a hay-rack loaded with good looking, healthy girls, have come back crippled up as one would be from lifting or holding a heavy object for several lengths of time. Of course this may not apply to the hay-rack load of Antioch young people who drove to Wilmet and Hatch's Corners last week Wednesday evening. They report a pleasant time, and the apple crop a good one in the neighborhood visited. The party consisted of the Misses Irma Van Patten, Lottie Haycock, E. Spencer, Annie Ames, Effie Harden, Donna Didama, and Lucy Effinger; Messrs. Ray Enerson, Dick Enerson, Percy Chinn, Burnett Warner, George Benedict, Charles Barber and Jay Haycock.

Twenty-six hundred acres of swamp land in Lake county are destined to become a beautiful state park, the first of its kind in the county, if plans of the Lake county board of supervisors mature.

This week the board passed a resolution instructing the state's attorney to quit claim this vast tract surrounding Grass Lake to the state. The area was deeded by the Federal government to the state about 10 years before the Civil War. Shortly after the Civil war, the state deeded

ed the land to Lake county. The region long has been a mecca for countless thousands of visitors who came here to see the world famous lotus beds.

There must be an urgent need for channel markers through the Lakes chain, judging from the wave of suggestions received at the Antioch News from readers.

Lake county farmers are preparing for their annual picnic to be held at Diamond Lake Tuesday, Aug. 27. Committees include Mrs. E. E. Elsbury, Earl Kane, Tom Huffman, Lee Kane.

Upon losing her grasp on an inflated inner tube, Mrs. Geneva Tackett, 25, of River Forest, was rescued in Loon lake Sunday afternoon by her husband, J. G. Tackett. When brought to shore she was apparently lifeless, but quick work by the inhalator squad of the Antioch Fire department revived her after an hour.

The Answer to a Farmer's Prayer!
An Automatic Barn-Cleaner

You've wished and waited for years to see the day when a really workable barn-cleaning system would come along. You've wondered why something hasn't been done to remove the drudgery and time-waste associated with this daily chore. Here, at last, is the answer. A time-tested and proven barn-cleaner that has been in trouble-free operation for several years. Now it is ready for you . . . ready to be quickly installed in your new or old barn . . . ready to save you one to two hours of hard work every day, depending upon the size of your herd.

Plan now to get the complete story of this "push-button" barn-cleaner. Simply phone or drop a card to your electric company's nearest store or office. A Farm Representative will gladly give you all the information you want. No obligation, of course, so get in touch with him today.

Electricity for barn-cleaning and other farm chores is available to more than 86% of all the farms in the area served by this company.

James, 82
Last Wednesday

Honored at Party

Carrying on his business "as usual" in spite of an ailment that put him on crutches, temporarily and confined him to his home, is Joseph C. James, redoubtable dean of Antioch (businessmen) who observed his eighty-second birthday anniversary last Wednesday.

A family gathering in his honor was held Sunday at the James residence on Orchard street.

Those present included Mr. and Mrs. Ralph James and family, Mrs. Lottie Miller, Mrs. Louise Gilbert and Mrs. Edward (Carolyn) Gilbert, all of Chicago.

Missing from the gathering was M/Sgt. Edward Gilbert, musical conductor of the stage production of "Winged Victory," who is now located in Atlantic City and is in charge of the 150 musicians who give weekly concerts and furnish the music for all rehabilitation centers in that city.

A dinner was enjoyed at Otto Krahn's resort on Bay Shore road. Krahn was previously in charge of a restaurant in the Kimball building, Chicago, where Louise Gilbert has taught for the past 12 years.

Many birthday greetings and messages were received by "Joe" during the past several days.

MRS. MATTHESEN TO BE BAHAI SPEAKER

Mrs. Nina Mathiesen, of Bristol township, will be the guest speaker at the Baha'i House of Worship in Wilmette, on Sunday, Aug. 19, at 3:30 p. m. Her subject will be "Individual Responsibility to World Peace."

She will base her talk on the following quotation— "God, the All-Knowing Physician, states the Rounder of the Baha'i World Faith, hath His finger on the pulse of mankind. He perceiveth the disease, and prescribeth in His unerring wisdom, the remedy. Every age hath its own problem, and every soul its particular aspiration. The remedy the world needeth in its present-day afflictions can never be the same as that which a subsequent age may require. Be anxiously concerned with the needs of the age—live in, and center your deliberations on its exigencies and requirements."

ANTIOCH AND INGLESIDE GIRLS HOLD SCHOLARSHIPS

Kathleen Fields, daughter of Mrs. John Fields, Antioch, and June Lucille Dalziel, daughter of Mr. and Mrs. Guy Dalziel, Ingleside, are holders of scholarships at Illinois State Normal university which have been increased in value under revision of the Illinois high school scholarship law. They are among 295 students at ISNU who will benefit from the revision, as well as high school graduates who have been awarded scholarships this year.

"The Fates are Laughing," by W. P. Crozier, is a love story of Roman society at the time of Tiberius, Caligula, Pilate, and Peter. The story of Metella, her Jewish slave Iris, and her husband Lucius is told with affectionate warmth and humor, and the characters who came into the story are real people living in a dramatic time.

In "The Double Agent," H. T. Teller gives us an exciting spy story, whose action takes place in France after the defeat of Germany. In '39, a picture assignment takes John Houten to France, three days after his marriage to Cally Smith. When the war ends, Cally finds him in Paris, and is swept into his flight for life through the wild, high country of the Massif Central.

Col. Robert L. Scott, Jr., who wrote "God is My Co-Pilot," has written a new book, "Runway to the Sun." He describes his boyhood, when he was "jealous of the birds," and the proud period when he had earned his wings and no longer envied the flight of the birds. Col. Scott describes the adventures, amusing, exciting and otherwise, that a pilot meets in the air.

The complete story of America's new big aircraft carriers—the biography of Task Force 58—is told in stirring narrative form and illustrated with pictures and maps in "Carrier War," by Lt. Oliver Jensen, U. S. N. R. It describes the growing power and fury of the Navy's campaign through the Philippines, Wake, Rabaul, Tarawa, the great raids on Truk, Saipan and Paulau, and the battles of the Philippine sea. Revealing mistakes as well as victories, it tells much about our naval fliers and describes many thrilling rescues at sea.

Christmas Shopping Time

The postoffice announces that Christmas packages for servicemen and women overseas will be accepted between Sept. 15 and Oct. 15.

Sept. 15 is four weeks away, but have you noticed how short the weeks are these busy times? A week goes by like a leaf on the wind.

So unless you care to risk having ALL the weeks go by with your overseas Christmas shopping still undone, you had better start immediately.

Moreover, your serviceman or woman overseas will be much more sure of receiving your gifts on time if you are ready to mail them at the BEGINNING of the mailing period than if you wait until the end.

Handling the tremendous task of redeploying our forces from Europe to the Pacific theater, our shipping will be taxed to the limit, so do what you can to spread the burden.

And rejoice as you shop in the knowledge that this will almost certainly be the LAST time you will have to do your Christmas shopping in the heat of Summer.

(Continued from Page 1)
rica in November, 1943 via the South Atlantic route of the ATC. The B-24's were united with the ground echelons in January and were at first based at Gioia in Italy. They flew their first combat mission Jan. 30, 1944, against enemy radar installations in Albania.

Other targets in later missions were the famous Regensburg aircraft factory in Germany; ball-bearing plants at Steyr, Austria; oil refineries at Ploesti, and at Markersdorf near Vienna. Later, the 451st was called on to give support to the drives of the Third and Seventh armies in southern France. B-24's were used to fly supplies of gasoline, ammunition and bombs to Lyons. In the fall, synthetic oil plants in central Germany, Poland, Czechoslovakia, Austria and Hungary were hit almost daily, with communications targets and railroad yards second in priority.

With the beginning of the ground drive by the American Fifth and British Eighth armies in northern Italy, the 451st began to fly close support missions in conjunction with the ground forces. During April of 1945, 22 missions were flown in 26 days and bombing accuracy reached a new peak, with 67.7 percent of all bombs landing within 1,000 feet of the exact pinpoint target. The group made its last raid on April 27th.

Sgt. Nelson was recently home on furlough, before reporting at Dow field. A brother, T/S H. S. Nelson, has also been serving overseas, and is now with the 138th Financial Disbursement unit.

Civilian Supplies of DDT Being Released

The Lake-Cook Farm Supply company of Grayslake, Ill., announces today that it will soon receive first civilian supplies of DDT, powerful new insecticide.

Most essential users of DDT, including farmers, fruitgrowers, dairy and cattlemen will be the first to benefit from the limited supplies, the announcement said.

By next spring, householders and victory gardeners under present plans will be able to purchase the insecticide.

Pennsylvania Salt Manufacturing company, large wartime manufacturers of the remarkable new insect pest killers, say that civilian DDT will be supplied in four different forms: as a dust or spray for large agricultural users, beaches and resorts; as a household insect spray and as a household dusting powder both to control flies, ants, mosquitos, roaches and other pests. It will also be incorporated into garden insecticides, possibly in oil or water base.

DDT, first discovered 71 years ago by a German scientist, has been in practical use for a little more than two years. Termed by Army authorities as "the war's greatest contribution to the future health of the world," DDT has so far performed its greatest service combatting insect-borne tropical diseases and epidemic-carrying lice. Used in giant spray guns, atomizers and in tiny chemical "bombs" in battle areas, the new insecticide eliminates insects over a wide area for a month or longer. A single pint-sized chemical "bomb" is sufficient to kill all the insects in 150 pup tents or 50 bombers, carrying lice. Used in giant spray guns, atomizers and in tiny chemical "bombs" in battle areas, the new insecticide eliminates insects over a wide area for a month or longer. A single pint-sized chemical "bomb" is sufficient to kill all the insects in 150 pup tents or 50 bombers.

Described as "one of the most promising new discoveries for U. S. agriculture," DDT owes a large share of its present development to the work of U. S. Bureau of Entomology and Plant Quarantine and state experimental stations. It will be used on a mass scale in agriculture, spread in dust form by airplane and atomized by variations of Army smoke screen and chemical fog makers. DDT will also be used to reduce the insect population over wide areas of seashore and summer resorts for as long as several weeks. It is expected to perform a similar job in insect-proofing households for a long period after one or two applications. It is fatal to nearly every known insect from bedbugs and lice to Japanese beetles, codling moths and cotton bollworms.

In the WPB announcement which released DDT for civilian use, Siedert A. Rohwer, Assistant Chief of Entomology and Plant Quarantine stressed the potency of DDT and warned industry and the public that "there is a great deal to be learned about how to safely use DDT from the standpoint of hazard to the user, the consumer of products on which residues may occur, the effect it may have on soils and the whole balance of nature in terms of beneficial insect and wild life."

Sticking Bureau Drawer
If humid summer air has swelled the bureau drawer, dry out the wood. (Running in a low-watt light bulb is a good way—but don't scorch things). Coat all sides of the drawer with good shellac or quick-drying varnish. This will retard absorption of humidity. Rubbing paraffin in the grooves and runners will also help.

You may be thinking you've been getting things down to a pretty fine point so far as income taxes and other taxes that go to the bu. of Int. Rev. are concerned, but you ain't heerd nuthun yet—

The letter said:

"Enclosed please find your tax on our movie show."

The letter was signed by Don C. Thew, Jack Vanderburgh, and Charlie Garrison.

Barber Shops(?)

She, who directs most of the activities around our little domicile, quietly informed another member of our household she probably would have to braid my hair. Naturally, I was not supposed to hear, but quite naturally I did. Now I have no idea what that means in your home; but in mine, words spoken with a syrupy tinge of sarcasm mean there is a storm brewing. So rather than wait for the lightning to strike I hid me to the barber shop for a hair trim.

I say "hair trim" knowingly; it has been quite some years since I have had a hair cut. One barber told me he charged me 65c because he had to spend so much time looking for 'em. The hound.

I was the only man, outside of the barber, in the place and had to wait while a couple of ladies had their locks trimmed. I felt out of place. Imagine a man feeling out of place in his own club; but the barber shops have changed considerably since I was young and had lots of hair.

When I was a kid the barber shop was a place for men—and the game of checkers. The men came once a week—some even twice—to be shaved and once every two or three months to have their hair cut. There were a few men who got shaved every other day, and had their hair cut once a month, but they usually were talked about. In those days virtually everybody had the habit of putting off the hair cut till Saturday afternoon.

Overseas Veterans of all Wars

COMRADE:

Please reserve Saturday night, August 25th, as you are invited to attend a get-together round-up of all overseas veterans in and around Antioch to help form a Veterans of Foreign Wars post here.

Don't misunderstand the meaning of V. F. W.—find out for yourself by attending the first meeting and pass the word to all others who are privileged to become members. The forming of this post depends on you. This is purely a social organization. A place and time to get together to meet old and new buddies; to be active in, and to be helpful to the less fortunate comrade.

Believe me, there are many who would like to be one of us, but who are not permitted; so don't miss your chance to become a charter member. We will be able, if permitted by your attendance this night, to appoint regular officers who will carry on their duties for one-year terms. We want you comrades to take an active part in so doing.

Remember, this is your opportunity to tie into a closer relationship, and to be recognized as an overseas veteran by those around you. You have earned this right!

Learn what this wonderful organization has done in the past long years, and you can help those of us in the years to come.

We will be looking for you on this night. So again we ask you to be with us in this work of organizing the VETERANS OF FOREIGN WARS.

Resp. yours,

Comrades

Jap Port

Yokohama is situated on Tokyo Kaiwan and is one of the most prominent ports in Japan. It is about 12 miles southwestward of Tokyo and 337 miles east of Kobe. When the place was first opened in 1859 it was a mere fishing village. Here a temporary shed was erected in 1854 to receive Commodore Perry. In order to prevent collisions between the foreigners and natives a great portion of the city was leased as a foreign settlement and many barrier gates were set up. The town has grown rapidly and much land has been reclaimed, and extensive harbor works erected.

Enrichment Popular

Enrichment has not increased the cost of bread to the consumer, and it does not alter its taste, texture or color. For these reasons it has "caught on" with the American public. We are enjoying its benefits now, but unless states enact legislation to continue the program the measure will go out six months after the war is over.

Set Off Pork

When serving pork, plan to serve apples in some form—apple salad, applesauce, apple rings, etc. Apples are the perfect complement to pork, both as to taste and digestion.

Catches Food

To prevent foods scattering when thrown through a food chopper, fasten a paper bag over the opening of the chopper with a rubber band.

Test Oven Heat

Lacking an oven thermometer or thermostatic oven control, one can compute roughly the heat of an oven by placing a piece of unglazed paper in center of lighted oven. When paper browns in half a minute, heat is 475 to 500 degrees Fahrenheit; in one minute, 400 to 425 degrees; minute and a half, 350 to 375 degrees; two minutes, 325 degrees. A cake is done when it shrinks from sides of pan, springs back when pressed lightly on top with finger, does not "sing" when held to the ear, does not stick to toothpick or straw inserted in center.

The Kenosha County 4-H club one day exhibit held at the high school grounds on Saturday had many interesting entries. A particularly large showing of cattle, hogs and chickens was on the grounds. In the high school building a complete educational exhibit, flower show, needle work, canned goods, baked goods and garden produce were housed in different rooms. The exhibits were arranged advantageously and showed for much effort on the part of 4-H club exhibitors. A style show with the participants wearing gowns they had made themselves, was held in the gymnasium at two

o'clock in the afternoon. There was an excellent attendance and the Wilmot Mothers' club provided meals in the school dining hall.

Provide Iron

Molasses is still a good, cheap source of iron; other commonly used sources are meat—especially liver and eggs. A four to six-ounce serving of meat will furnish about one-fourth to one-half of the day's requirement, and one egg will furnish about one-sixth of the day's requirement.

Renew Towels

Frayed turkish towels can be renewed by stitching white tape along the edge. If center is worn, the towels can be cut into wash cloths and finished with a crocheted edge or tape.
